

October 2021

## 1. Highlights

- **Under the October cycle, WFP targeted 11.9 million people with general food assistance in Yemen:**
  - Of these, approximately 8.6 million people were targeted with in-kind food assistance, 2 million people with commodity vouchers, and 1.3 million people with cash assistance.
- The depreciation of the Yemeni riyal (YER) continued in October in areas under the Internationally Recognized Government of Yemen, reaching a new record low of close to YER 1,400/USD 1 by the end of the month.
- The food security situation in Yemen remains critical, as the underlying drivers of food insecurity continue to worsen. Conflict-affected Ma'rib governorate has now seen a 55 percent increase in rates of inadequate food consumption since the beginning of the year.
- Military escalation continues in Ma'rib governorate, with media reports of heavy military casualties. WFP was in late October able to start distributions to 15,000 people in the previously inaccessible Al Abdiyah district.
- A study projects severe environmental damage, as well as large-scale food security impacts, from a potential oil spill from the abandoned 'FSO Safer' oil tanker moored 60 kilometres north of Al Hodeidah port.
- A fifth budget revision to the WFP Yemen 2019-2021 ICSP, an extension of the ICSP through 2022, was submitted for the electronic programme review and approval process (e-PRP) on 19 October.

## Beneficiaries<sup>1</sup>

Yemen interim Country Strategic Plan (2019-2021) – Revision 04

General Food Assistance	August	September	October <i>(ongoing)</i>
<b>Planned</b>	12,638,772	12,610,772	12,484,151
<b>Operational Plan</b>	12,150,894	11,422,376	11,868,474
<b>Reached</b>	11,925,468	11,289,818	9,660,894 <sup>2</sup>
<b>% of Prioritized</b>	98%	99%	81%
School Feeding	August	September	October
<b>Planned</b>	-	1,500,000	1,500,000
<b>Operational Plan</b>	-	1,348,300	1,348,300
<b>Reached</b>	-	794,106	525,256
<b>% of Prioritized</b>	-	59%	39%

<sup>1</sup> Note: The provision of Immediate Response Rations (IRR) is an ad-hoc emergency response that cannot be quantified per month and there is no monthly target. WFP Yemen provides IRRs based on the number of IDPs coming to the transit sites per day. IRR does not fall under GFA. Total beneficiaries reached monthly is not cumulative because all activities overlap with GFA. The planned figures are drawn from the ICSP budget revision, which incorporates the provision of general food assistance to 12.9 million people via GFA.

<sup>2</sup> Distribution cycle still ongoing at the time of writing.

Livelihoods and Asset Creation	August	September	October
Planned	415,534	643,265	760,305
Operational Plan	100,590	53,410	79,100
Reached	100,000	49,672	77,000
% of Prioritized	99%	93%	97%

Reached	341,642	544,627	461,938
% of Prioritized	56%	89%	76%

## 2. Situation Update, including security

### COVID-19:

- As of 31 October, WHO had [reported](#) 9,751 confirmed cases of COVID-19 in Yemen and 1,874 deaths. A total of 712 confirmed cases and 159 deaths were reported in October.

### Economic Situation:

- The value of the Yemeni riyal (YER) in areas under the Internationally Recognized Government of Yemen (IRG) continued to depreciate in October. After breaking the YER 1,200/USD 1 barrier for the first time on 06 October, the riyal had by the end of the month reached a new record low of YER 1,383/USD 1 as of 31 October. In areas under the Sana'a-based authorities, the riyal remains stable at YER 600/USD 1 due to tighter economic controls imposed by authorities.
- WFP, FAO, and the inter-agency Minimum Food Basket (MFB) Technical Working Group are currently undertaking an analysis of the deteriorating USD to YER exchange rate in areas under the IRG, and its potential implications for the transfer value of the Food Security and Agriculture Cluster (FSAC) MFB.
- In October, three fuel vessels carrying 82,700 mt of fuel completed its discharge at Al Hodeidah port, while a total of two vessels carrying 50,600 mt of fuel continued to be held in the Saudi-led Coalition (SLC) holding area. While there was no major interruption to WFP's operation due to the ongoing fuel crisis, one-two day delivery delays were reported at district level where fuel was not always available.

### Food Security Situation:

- According to the latest WFP data covering the month of September (released in October), the nationwide average rate of inadequate food consumption in Yemen stands at 41.5 percent, above the "very high" threshold of 40 percent. The rate of inadequate food consumption remains notably higher in areas under the IRG (46 percent) as compared to areas under the Sana'a-based authorities (39 percent). This is likely related to the

<sup>3</sup> Note that nutrition figures are based on dispatches.

continued depreciation of the Yemeni riyal (which has been especially pronounced in areas under the IRG), the related growth in food prices, as well as recent escalation in conflict and related population displacement.

- Food affordability, as measured by the average cost of the Minimum Food Basket (MFB) continued to worsen in October, and the average cost of the MFB has now increased by 69 percent since January 2021 in areas under the IRG, and by 30 percent in areas under the Sana'a-based authorities.
- Conflict-affected Ma'rib governorate has seen the most severe deterioration of the food security situation among the governorates of Yemen this year, with the rate of inadequate food consumption growing by 55 percent from January to September 2021.

#### **Security Situation:**

- Military escalation continued to be reported from the central governorates of Ma'rib, Shabwah, and Al Bayda, in October. According to the IOM Rapid Displacement Tracking, close to 50,000 people have now been displaced since the beginning of the year across the three governorates.
- At least six people were killed and seven wounded in a vehicle-borne improvised explosive device (VBIED) attack in the At Tawahi district of Aden City (Aden governorate) on 10 October. The attack reportedly targeted a convoy carrying the governor of Aden governorate and the Minister of Agriculture. Both are reported to have survived, and there has been no claim of responsibility by any parties for the attack. All WFP staff in Aden City remain safe and accounted for, and there was no impact on WFP operations.
- On 21 October, multiple airstrikes were reported targeting the Sawan-area of northern Sana'a City (Sana'a governorate). All WFP staff and dependents in Sana'a City are safe and accounted for.

#### **Floating Storage and Offloading Vessel (FSO) 'Safer':**

- A [study](#) published on 11 October models the impacts of a potential oil spill from the abandoned floating storage and offloading vessel (FSO) 'Safer', currently moored approximately 60 kilometres north of Al Hodeidah port. The study estimates that the food supply for up to 8.4 million people would be disrupted in the event of a spill and subsequent port closures.

## **3. Programme Update**

### **3.1 Assessments**

- Data collection for the nationwide 2021 Food Security and Livelihoods Assessment (FSLA) is underway across all governorates of Yemen. As of 04 November, data collection was 48 percent complete in areas under the Sana'a-based authorities, and 36 percent complete in areas under the Internationally Recognized Government of Yemen (IRG).
- In some areas of country currently experiencing active conflict (including Ma'rib governorate, as well as some western coastal areas), data collection is proceeding slower than planned due to security-related challenges. In Al Hodeidah governorate, additional enumerators are currently being trained to speed up FSLA data collection.

### **3.2 Prioritized Populations/Beneficiaries**

- WFP is conducting a countrywide beneficiary retargeting and registration exercise, which aims to reach 4.2 million people in the southern governorates of Yemen and 9 million in the northern governorates. As of October 2021, nearly 2 million people have been biometrically registered in WFP's beneficiary information and transfer management platform (SCOPE) in the areas under the Internationally Recognised Government of Yemen (IRG).
- In areas under the Sana'a-based authorities, WFP launched biometric registration in Sana'a City in November 2020. As of October 2021, the first phase of targeting has been completed: 118,600 people have had their biodata digitized into SCOPE, and nearly 52,000 people have been biometrically registered for WFP GFA-CBT assistance.

### 3.3 Programme Implementation

#### **General Food Assistance (GFA):**

- Under the October cycle, WFP targeted 11.9 million people with GFA. Of these, 8.6 million people were targeted with in-kind food assistance, 2 million people with commodity vouchers (CV-TN), and more than 1.3 million people with cash transfers (CBT).
- WFP faced delays in the September and October general food assistance (GFA) cycles as distributions of in-kind food assistance were impacted by dispatch delays across multiple governorates, as well as insecurity in some areas, including Ma'rib and Al Bayda.

#### **Rapid Response Mechanism (RRM):**

- In October, WFP distributed immediate response ration (IRR) kits (a five-day ration for a family of seven) to around 8,500 households (59,500 people) via its Rapid Response Mechanism (RRM) partners.

#### **Livelihoods and Asset Creation:**

- In October, WFP reached around 77,000 beneficiaries under its livelihoods and asset creation activities. The participants worked on rehabilitating and constructing 154 assets during the month, including rural road rehabilitation, water harvesting schemes and agricultural projects.
- New food assistance for training (FFT) activities with a total of 600 women in Hadramawt City started a six-month training in October. The participants will be provided start-up grants after successfully completing the required trainings and assessments. The grants will be used to establish and improve the women's businesses and help them utilize the skills they have gained during the training period.
- A total of 34 assets were completed in Al Hodeidah and Amran governorates in October.

#### **School Feeding Programme:**

- In October, around 512 mt of high-energy biscuits (HEBs) were distributed to more than 525,000 in 34 districts in 8 governorates in areas under the IRG.
- The Healthy Kitchen project in Aden city resumed operation as of 27 October, covering around 6,300 students across seven schools in Dar Sa'ad district, Aden.
- School feeding in the northern governorates of Yemen remained on hold in October following reports of tampering with WFP-received date bars in late September. School feeding distributions were paused on 27 September in all northern governorates as a precautionary measure, affecting 770,500 students across 2,407 schools. School feeding continued in the southern governorates, where children receive high-energy biscuits.

#### **Nutrition:**

- Under the October cycle, WFP dispatched around 1100 mt of nutrition products (LNS-MQ) for the prevention of Moderate Acute Malnutrition (MAM) and micronutrient deficiencies for over 747,900 children aged 6-23 months, representing 93 percent of the operational plan to reach 800,700 children. WFP also dispatched around 1650 mt of SuperCereal (WSB+) for the prevention of MAM and micronutrient deficiencies for around 550,500 pregnant and lactating women and girls (PLWG), representing 67 percent of the operational plan to reach 822,000 PLWG.
- Under the October cycle, WFP dispatched around 650 mt of nutrition products (LNS-LQ) and 1460 mt of SuperCereal (WSB+) for the treatment of MAM and micronutrient deficiencies for 217,800 children aged 6-59 months and 244,100 PLWG, representing 76 percent of the operational plan to reach 249,000 children and 360,000 PLWG.

### 3.3 Monitoring and Evaluation (M&E)

- In October, WFP and third-party monitoring Company (TPM) monitoring staff conducted 1,300 monitoring activities, including in-person visits and remote monitoring calls. The monitored activities

included in-kind food assistance, commodity vouchers, cash assistance, prevention and treatment of MAM programmes, and livelihood activities.

- The Sana'a-based call centre conducted over 2,600 calls to verify food deliveries to food distribution points (FDPs). In addition, the Beneficiary Verification Mechanism (BVM) team conducted around 21,500 calls with beneficiaries to verify the receipt of assistance.

### 3.4 Gender and Protection

- *Nothing significant to report.*

## 4. Resourcing and Pipeline

- The fifth budget revision ([BR05](#)) to the WFP [2019-2021 Yemen Interim Country Strategic Plan](#) (ICSP) was submitted for the electronic programme review and approval process (e-PRP) on 19 October. The budget revision will primarily entail a 12-month extension-in-time of the current ICSP (through 2022) as well as additional programmatic adjustments to align WFP's programme of work with recent contextual developments.
- To sustain operations for the next six months, WFP requires USD 802.4 million for the next six months (November 2021 to April 2022):

SIX-MONTH NET FUNDING REQUIREMENT BY ACTIVITY (NOVEMBER 2021 - APRIL 2022) - IN USD		
ACTIVITY	SHORTFALL START <sup>4</sup>	FUNDING REQUIREMENT
General food assistance	November	642.9 million
Nutrition	December	100.6 million
School feeding	December	38.1 million
Livelihoods	February	4.4 million
UNHAS	December	16 million
Logistics Cluster	-	-
Emergency Telecommunications Cluster	March	0.4 million
<b>TOTAL NET FUNDING REQUIREMENT</b>		<b>USD 802.4 MILLION</b>

## 5. Procurement and Logistics

- In October, WFP dispatched 89 percent of the 109,306 mt of mixed food commodities under the in-kind GFA modality (general food distributions), while over 4,800 mt of pulses were not dispatched in the northern governorates due commodity shortages.
- Under the nutrition activity, WFP dispatched around 4,900 mt of nutrition commodities, and over 15,600 mt of food commodities were delivered by WFP contracted wholesalers under the October cycle deliveries of commodity vouchers.
- WFP shipping operations brought over 99,200 mt of break bulk cereals and wheat flour into the country in October. WFP also received 1,089 containers holding around 24,600 mt of mixed commodities.
- In October, WFP Supply Chain awarded the local purchase of around 32,200 mt of various food commodities. Additionally, the Procurement Unit prepared and Issued a White Sugar - Analytical Study of Sugar Prices Local VS Int'l & Reg- Statistical Market Studies. The Procurement Unit also conducted assessment for available stock of essential food available in local market for October.

<sup>4</sup> Defined as a shortfall in excess of 20 percent of the monthly requirement.

## 6. Communications, Donor Relations, Operational Information Management (OIM) and Performance Reporting

### 6.1 Communications

- On 16 October, WFP released a statement of the contribution from Khalsa Aid International, part of a three-year programme to support school children in Yemen: [WFP and Khalsa Aid International strike partnership to support most vulnerable in two critical food crises](#).
- The Communications Unit developed a short video for the World Food Day that follows a little boy, Malik, who lives in As Swaida camp in Ma'rib. The selfie-style video is narrated by Malik as he shows the viewer a glimpse into life in an IDP camp: [Video: A boy in Yemen offers a glimpse into his life for World Food Day](#).

### 6.2 Donor Relations

- In October, contributions totalling over USD 6.1 million were confirmed for WFP's operation in Yemen. This includes USD 5.5 million from Canada (1.1 million for 2021 and 4.4 million for 2022) and 4 top ups totalling USD 0.6 million from private donors all earmarked at the Country Strategic Plan (CSP)-level.
- Proposals were prepared and negotiations continued for multiple donors, including the United States-BHA (USD 150 million), Qatar (USD 90 million), the Kuwait Fund for Arab Economic Development (USD 2 million) and the Kuwait Red Crescent Society (USD 2.5 million), and German Foreign Office (USD 13 million for Crisis response and USD 1.1 million for UNHAS).
- Funding indications of USD 3.5 million from Sweden, USD 0.6 from Luxembourg, have been received and do not require funding proposals.
- WFP delivered a donor briefing on 21 October where were discussed the Food security situation, the ongoing Budget Revision, and the funding situation.
- WFP conducted two specific consultations with BHA and FCDO on the ongoing Budget Revision.

### 6.3 Operational Information Management (OIM) and Performance Reporting

- In October, the OIM and Performance Reporting Unit published four [Weekly Operational Updates](#):
  - [WFP Yemen Weekly Operational Update, 07 October 2021](#)
  - [WFP Yemen Weekly Operational Update, 14 October 2021](#)
  - [WFP Yemen Weekly Operational Update, 21 October 2021](#)
  - [WFP Yemen Weekly Operational Update, 28 October 2021](#)

## 7. Support Services

### 7.1 IT and Telecommunications

- On 05 October, the IT Unit conducted an oversight assessment mission to Aden Area Office. Also, the shipment of SCOPE and IT items has arrived and been offloaded at the WFP office in Aden.
- As part of capacity building, many staff of the TEC team in Aden have enrolled in some IT training that will be delivered online through the Learning Tree International website.

### 7.2 Administration

- As of the end of October, 65 visas had been approved and three visas were denied by the Sana'a-based authorities. 161 visas were approved, and one visa was denied by the IRG since the start of 2021.
- The WFP Sa'adah office and accommodation facility is reaching completion with furniture and services to be shortly installed/made available. Tendering for the works in the WFP Al Hodeidah facilities (office and accommodation) has been completed.
- UNICEF and FAO staff have been accommodated in the WFP Accommodation facility in Sana'a (3 Villas)

as part of inter-agency support.

### 7.3 Human Resources, Personal Health and Wellbeing

- While all WFP offices in Yemen, including all Area and Field Offices, are now open, WFP continues to monitor COVID-19 trends in the general population and among WFP staff to adjust in-office staff presence levels as required.
- As of the end of October, WFP has 100 out of 137 international staff inside Yemen. The remaining international staff are working from 28 countries. All 775 national staff are in Yemen.

### 7.4 United Nations Humanitarian Air Service (UNHAS)

- In October, WFP-managed UNHAS operated 79 flights transporting around 1,490 passengers from different UN agencies and INGOs.

## 8. Clusters

### 8.1 Food Security and Agriculture Cluster (FSAC)

- In October, FSAC continued supporting the ongoing WFP-led FSLA implementation across the country.
- The revised value of the FSAC MFB was prepared by the FSAC Minimum Food Basket Technical Working Group and endorsed at the national cluster partners meeting held on 27th October 2021.

### 8.2 Logistics Cluster

- Through its coordination and logistical information management activities, the Logistics Cluster supported 16 partners in October.

### 8.3 Emergency Telecommunications Cluster (ETC)

- In October, the ETC helpdesk received and resolved 1,294 issues from responders. Also, the ETC provided critical Internet connectivity to 776 humanitarians across 16 sites in Yemen, and communications services to a total of 2,568 responders supported by eight UNDSS-managed Security Operations Centres (SOCs) across the country.
- The ETC is funding and supporting the five kilometres extension of a fiber link in 90 District in Aden to provide stable connectivity services to INGOs based in the area.

### 8.4 WFP Bilateral Service Provision (BSP)

- In October, BSP delivered around 3.3 million litres of fuel to WHO and UNICEF to support the uninterrupted services of hospitals and local water and sanitation services.
- Around 147,900 litres of fuel were provided to WFP offices, UN agencies and INGOs through the BSP Small Quantity Fuel provision mechanism in October.
- Around 2,700 m3 of medical supplies were transported through BSP Yemen by sea on behalf of UN partners, and around 3,300 m3 of medical items are in the pipeline.

## 9. Annexes: WFP Response in Numbers

WFP Yemen Interim Country Strategic Plan (2019-2021) <sup>5</sup> – Revision 04

### School Feeding

<sup>6</sup> Defined as the annualized value of Allocated Contributions available and consist of the yearly allocation of "contributions", plus unspent balance of Allocated Contributions carried forward from previous years. "Contributions" include multilateral and directed multilateral contributions (both programmed and unprogrammed portion), locally generated funds, other miscellaneous income and resource transfer. Contributions with future contribution year and advances are not included.
