OPPORTUNITIES

PRESENCE INSIDE LIBYA

WFP is constantly expanding its presence and programming in Libya, with staff now stationed in five locations nationwide: **Benghazi, Sebha, Sirte, Tripoli** and **Zwara**.

UNHAS allows for the continuation of humanitarian operations in Libya and enables the movement of vital equipment and staff around the country. **UNHAS** plans to provide further access to the south, pending an acceptable security situation on the ground.

STRATEGIC CONTRIBUTION TO UN EFFORTS

The **ICSP**, aligned with the **UNSF**, shapes **WFP's** contribution to collective **UN** efforts, including through the launch of **UNHAS** operations and the leadership of the Emergency Telecommunications, Food Security and Logistics Sectors. The **WFP-managed UN Hub** in Benghazi is also crucial for UN agencies to strengthen relationships with communities and authorities in the East.

SHIFTING MODALITIES

WFP plans to gradually replace in-kind transfers with value-based vouchers and commodity vouchers where feasible, contributing to stimulating the local economy while potentially mitigating security risks around delivery, particularly in conflict areas.

PREPARING FOR RECOVERY

WFP is introducing interventions that support recovery and resilience, including livelihood support activities which leverage women's ability to contribute to reconciliation and peacebuilding efforts. **WFP** is also highly engaged across the humanitarian-development-peace nexus to build on the complementarity of partners and achieve joint objectives, and leads the in-country Nexus Working Group involving a broad number of actors including NGOs, donor institutions and peacebuilding actors.

LESSONS LEARNED

Preparedness and flexibility are key to delivering life-saving assistance in a complex and unpredictable environment.

Focusing on gender analysis is vital to better understanding the gender-related causes of food insecurity, the differentiated needs of women, men, girls and boys and designing the most appropriate responses.
